

Air2-Aria/W

WIRELESS KEYPAD WITH LCD GRAPHIC DISPLAY

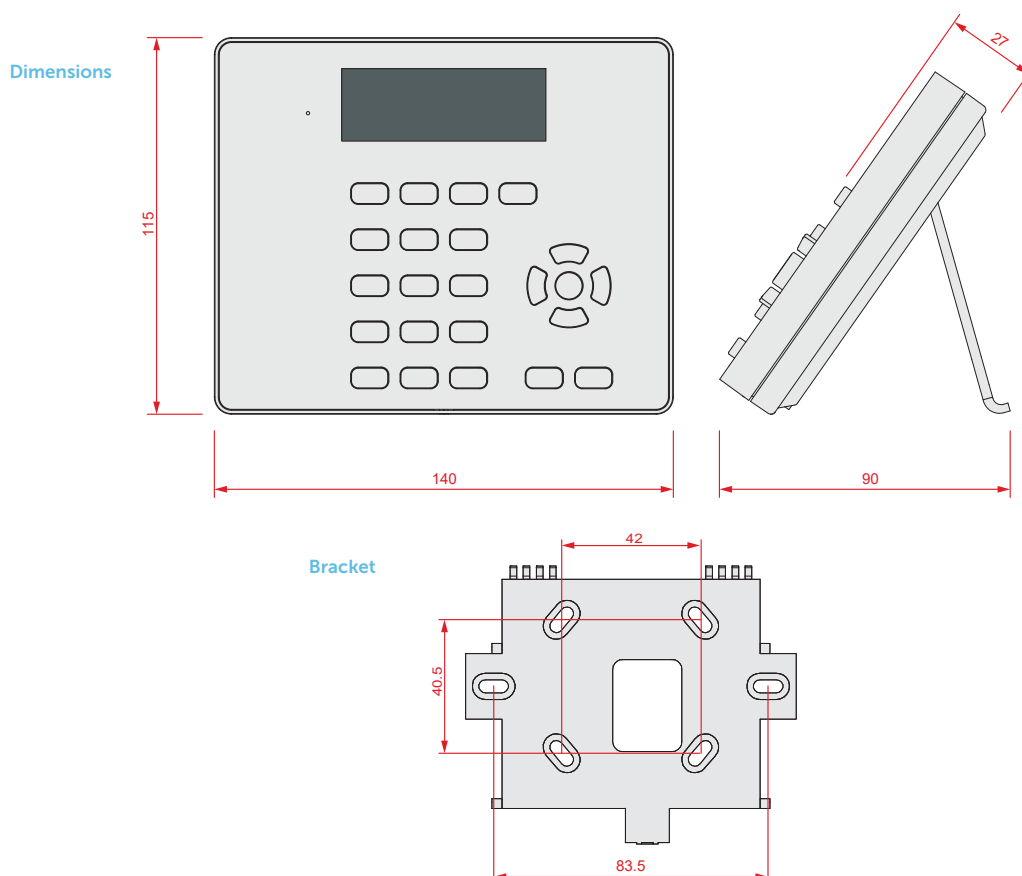

The Aria/W wireless keypad provides all the necessary functions for control and management of a Inim installation equipped with an Air2 system, which it can interface with through the Air2-BS200 transceiver. It integrates all the functions present on hardwired keypads and provides a graphic display with user-friendly icons and 4 easy-to-use function keys.

The keypad Aria/W is equipped with a wall bracket and a table bracket. It is equipped with an accelerometer which provides both anti-tamper and "wakeup" from stand-by functions, whereas the brightness sensor controls the display and key brightness optimally with respect to the surrounding environment.

Moreover, it has an automatic shutdown function in the event of loss of wireless connection.

Aria/W is also equipped with a connector which allows hardwiring connection if required.
